Forecast for Saturday 01 Apr 2023

Weather: The Trossachs and eastern parts of Lochaber amd Argyll cloudy, and while mainly dry, the odd patch of drizzle or summit wintry flurry can't be ruled out. Some sunny spells at first towards western Argyll and Lochaber but cloud tending to fill in during the day.

Chance of cloud-free hill tops above 800m: 80% in west, 40% in east.

Low Cloud and visibility: Overcast in east, with cloud bases varying between 500 and 900m, tending to lift. In west, patchy cloud at first then gradually becoming broken to overcast but with higher bases, mainly above the tops here. Good visibility away from the cloud during the day.

Met Office Aberdeen Meteorologist's View
Note the lower freezing levels.

Forecast for Sunday 02 Apr 2023
Weather: A generally dry day, some bright or sunny intervals especially in the south. More cloud across Lochaber and North Argyll bringing the chance of some hill fog and perhaps the odd patch of light rain or summit snow flurry, but low confidence in the cloud distribution.

Maximum wind: Variable direction 5-10mph.

Chance of cloud-free hill tops above 800m: 80% in south, 40% in north.

Low Cloud and visibility: Areas of cloud at 600-900m in north, more broken and higher based in the south with mostly good visibility away from the cloud.

Temperature: **Glens:** Plus 3 Celsius rising to 9 Celsius.
At 800m: Plus 3 Celsius.
Freezing level: 1100m.
